

Electricity

The Dallas–Fort Worth region ranks close to the national median in terms of overall electric rates. The state of Texas operates on a power grid separate from that of the rest of the country, meaning DFW ranks high in electrical systems reliability.

The Electric Reliability Council of Texas (ERCOT) manages the flow of electric power to 26 million Texas customers. Furthermore, because Texas has a deregulated electricity market, consumers can shop around and choose their service providers, giving them flexibility in pricing and service.

Water, Sewer, Gas, & Telecommunications

Dallas–Fort Worth is expected to continue growing at a rapid rate. In order to keep up with projected demand for utilities, the region’s leaders have made it a priority to secure reliable sources of water and gas. The area’s numerous lakes and the abundance of natural gas reserves, located in the geologic formation known as the Barnett Shale, ensure that DFW will have access to these resources in the decades to come.

AT&T and Texas Instruments, among others, call DFW home. As a result, the region is a strong telecommunications hub. Multiple carriers’ fiber networks connect North Texas cities to one another, as well as to the rest of the U.S. and the world. Redundancies in connectivity, combined with relative freedom from natural disasters, means minimal risk of downtime for any business operating in the vicinity. And with the roll-out of 5G technologies by all of the major service providers, businesses in DFW have an unlimited ability to be connected internally, to other businesses, and to their customers.

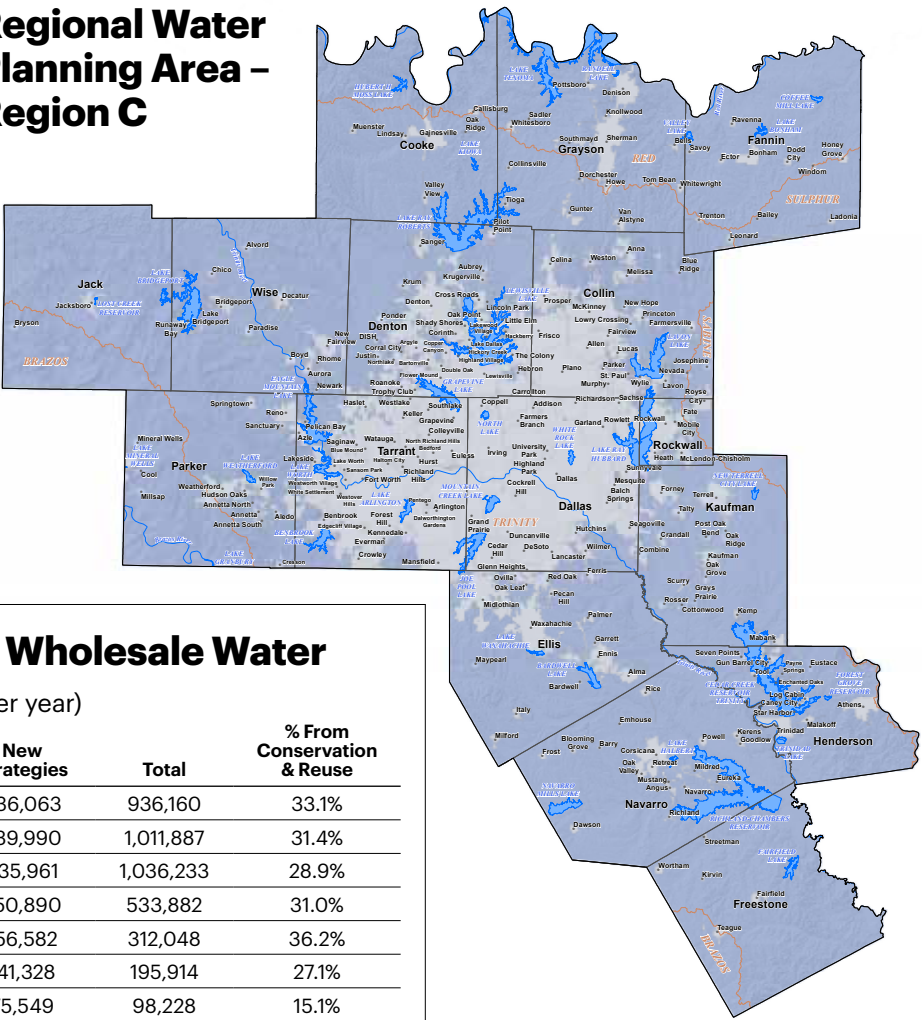

Rates and Infrastructure Within DFW

Water and Sewer

Residential	Price per 1,000 gallons	
	Water	Sewer
Up to 4,000	\$1.99	\$5.67
4,001 to 10,000	\$4.33	\$5.67
10,001 to 20,000	\$7.07	\$5.67
20,001 to 30,000	\$10.08	\$5.67
Above 30,000	\$11.72	\$5.67
General Services	Price per 1,000 gallons	
	Water	Sewer
Up to 10,000	\$4.70	\$4.81
Above 10,000	\$5.16	\$4.81
Above 10,000 and 1.4 times Annual Average	\$7.85	\$4.81

Natural Gas

The Barnett Shale

Natural Gas Rates*

	Customer Charge per Month	Commodity Charge/CcF
Residential	\$25.80	\$0.23307
Commercial	\$55.54	\$0.10558
Industrial	\$1,106.65	\$0.3300 (0-1,500 MMBtu) \$0.2407 (1,501-5,000 MMBtu) \$0.0379 (over 5,000 MMBtu)

*Rates are for Dallas only—different rates apply to other cities and unincorporated areas. Excludes additional charges such as gas cost recovery, weather normalization, taxes, and fees. Industrial commodity charge is based on level of MMBtu's used. Rate is current as of September 1, 2022 and is subject to change.

◀ **The Barnett Shale** is one of the largest natural gas fields in North America. Exploration, drilling, and production in the Barnett Shale have transformed the economy with thousands of jobs and millions of dollars in investment, and contributed to opportunities and prosperity for the entire region.

Telecommunications

Major U.S. Internet Peering Points

◀ Connectivity is a core strength of Dallas-Fort Worth. It is one of the primary peering points of all U.S. internet traffic, enabling companies located here to have fast and reliable access to the world's telecommunications infrastructure.
